

Department of Pharmacy

The Department of Pharmacy, Mangalayatan University, Jabalpur, celebrated **Pharmacist Day** with active participation from students and faculty. The event featured expert talks, poster presentations, and interactive discussions, highlighting the significance of pharmacy in patient care.

Guest Lectures from Government Pharmacists

Guest pharmacists from **Medical College, Jabalpur**, shared insights on the evolving role of pharmacists in healthcare.

The Department of Pharmacy, Mangalayatan University, Jabalpur, conducted the Pharmacist Oath Ceremony, where students solemnly pledged to uphold ethical pharmacy practices, ensure patient safety, and serve society with dedication. Faculty members emphasized the importance of professional integrity and responsibility in the pharmaceutical field.

The Department of Pharmacy, Mangalayatan University, Jabalpur, showcased various health and pharmacy-related models created by students, highlighting innovations in drug formulation, disease awareness, and healthcare advancements. The models demonstrated practical applications of pharmaceutical sciences, emphasizing research, patient care, and community health.

The Department of Pharmacy, Mangalayatan University, Jabalpur, organized a vibrant **Freshers' Party** to welcome new students with enthusiasm. The event featured cultural performances, interactive sessions, and fun activities, fostering camaraderie between seniors and freshers while creating a lively and welcoming atmosphere.

The **Department of Pharmacy, Mangalayatan University, Jabalpur**, organized exciting **sports activities** to promote fitness, teamwork, and a healthy lifestyle among students. Various indoor and outdoor games were conducted, encouraging active participation and fostering a spirit of sportsmanship and unity.

The **Department of Pharmacy, Mangalayatan University, Jabalpur**, organized **various food stalls**, where students showcased their culinary skills and promoted hygiene and nutrition awareness. The event created a lively atmosphere, encouraging teamwork, entrepreneurship, and cultural diversity through a variety of delicious and healthy food options.

The **Department of Pharmacy, Mangalayatan University, Jabalpur**, organized a **guest lecture on AI and Pharmacy**, where experts discussed the transformative role of artificial intelligence in drug discovery, patient care, and pharmaceutical research. The session provided valuable insights into emerging AI technologies and their impact on the future of pharmacy.

The **Department of Pharmacy, Mangalayatan University, Jabalpur**, organized a **Medical Camp** to provide free health check-ups, consultations, and medicines to the local community. Faculty and students actively participated, promoting healthcare awareness and emphasizing the role of pharmacists in community well-being.

Molecular Modeling and Dynamics: Docking, AI, and Machine Learning in Drug Design

Lectures in workshop include:

- Basic of molecular modeling and theories.
- Overview of Molecular docking
- Hands-on-experience in MD
- Application of AI and ML in Drug Discovery

03/02/2025 TO 05/03/2025
TIME | 5-6 PM

lectures by -
Ms. Sudipta Nandi
IIT Madras

Supported by -
Prime Ministers Research Fellowship (PMRF) scheme

Program Co-ordinator
Prof. Vikas Pandey
Prof. Rajesh Shukla
Mr. Shivam Kati
Department of Pharmaceutical Sciences
Mangalayatan University, Jabalpur (M.P.)-481002
